  - *Associate Degree Program in Computer Science*
  - Completed in 2022

🧩 Technical Skill

- PHP
- Laravel
- MySQL
- Javascript
- HTML / CSS
- Bootstrap
- Git

🧩 Soft Skill

- Problem-solving
- Communication
- Team Collaboration
- Adaptability
- Time Management

👤 Profile

I'm a passionate and dedicated developer with a focus on creating efficient and user-friendly web applications. With a strong background in computer science and hands-on experience in Laravel and other web technologies, I strive to deliver high-quality solutions to complex problems. My skills include PHP, Laravel, MySQL, JavaScript, HTML/CSS, Git, Composer, and Bootstrap. I am also adept at problem-solving, communication, team collaboration, adaptability, and time management.

📖 Projects

Multivendor E-commerce Website

Developed a robust multivendor e-commerce website using Laravel, designed to handle a diverse range of products with comprehensive CRUD operations. The platform features user authentication and role-based access, ensuring secure and tailored experiences for both customers and vendors. It includes a user-friendly shopping cart and wishlist system, along with an efficient product addition and management system. Additionally, an advanced admin panel was implemented, allowing administrators to oversee and manage site-wide orders, products, and other critical operational aspects. The site is built with a responsive design to ensure a seamless user experience across devices. This project highlights my expertise in Laravel, MVC architecture, database management, and front-end development.

CRUD Operation

Implemented a comprehensive CRUD system in Laravel, enabling Create, Read, Update, and Delete operations for managing resources efficiently. Designed intuitive interfaces for users to interact with data, ensuring seamless data manipulation. This setup provides a scalable and maintainable solution for dynamic web applications.

📖 Experience

Asquare Tech

Intern Laravel Developer | May 2024 - July 2024

Assisted in developing and testing web applications using Laravel and Bootstrap. Worked on bug fixing, feature enhancement, and gained hands-on experience in database management
